ABDOUS, B. (See LAKHAL CHAIEB, L.)
ANDREI, A.-C. and MURRAY, S. Estimating the quality-of-life-adjusted gap time distribution of successive events subject to censoring 343
ANTONIADIS, A. and FRYZLEWICZ, P. Parametric modelling of thresholds across scales in wavelet regression 465
AUH, S. and SAMPSON, A. R. Isotonic logistic discrimination 961
BABINEAU, D. (See LAWLESS, J. F.)
BAILEY, R. A. and KUNERT, J. On optimal crossover designs when carryover effects are proportional to direct effects 613
BARTOLUCCI, F., SCACCIA, L. and MIRA, A. Efficient Bayes factor estimation from the reversible jump output 41
BELLIO, R. (See PIERCE, D. A.)
BENJAMINI, Y., KRIEGER, A. M. and YEKUTIELI, D. Adaptive linear step-up procedures that control the false discovery rate 491
BERRY, K. (See HUANG, Y.)
BERTHELSEN, K. K. (See MØLLER, J.)
BETENSKY, R. A. (See COULL, B. A.)
BORTNICK, S. M., DEAN, A. M. and SANTNER, T. J. Efficient designs for one-sided comparisons of two or three treatments with a control in a one-way layout . 127
BOTTS, C. H. and DANIELS, M. J. A shrinkage estimator for spectral densities . . 179
BUTLER, N. A. Optimal blocking of two-level factorial designs 289
CAI, T. (See TIAN, L.)
CAI, Z. (See KUROKI, M.)
CAVALLINI, D. and CORRADI, F. Forensic identification of relatives of individuals included in a database of DNA profiles 525
CHAGANTY, N. R. and JOE, H. Range of correlation matrices for dependent Bernoulli random variables 197
CHAMBERS, R. and TZAVIDIS, N. *M*-quantile models for small area estimation . . 255
CHAN, D. (See PITT, M.)
CHAN, K.-S., HO, L.-H. and TONG, H. A note on time-reversibility of multivariate linear processes. 221
CHEN, M.-H., IBRAHIM, J. G. and SHAO, Q.-M. Posterior propriety and computation for the Cox regression model with applications to missing covariates. . . . 791
CHEN, S.-C. and LINDSAY, B. G. Building mixture trees from binary sequence data . 843
CHEN, S. X. and CUI, H. On Bartlett correction of empirical likelihood in the presence of nuisance parameters 215
CHEN, Y. Q. and CHENG, S. Linear life expectancy regression with censored data . 303
CHENG, M.-Y., HALL, P. and TU, D. Confidence bands for hazard rates under random censorship 357
CHENG, S. (See CHEN, Y. Q.)
CHIOU, J.-M. (See MA, Y.)
CONSONNI, G. and LEUCARI, V. Reference priors for discrete graphical models . . 23
COOK, R. D. and NI, L. Using intraslice covariances for improved estimation of the central subspace in regression 65
CORRADI, F. (See CAVALLINI, D.)

COULL, B. A., HOUSEMAN, E. A. and BETENSKY, R. A. A computationally tractable multivariate random effects model for clustered binary data . . 587
COULL, B. A. (See HOUSEMAN, E. A.)
COULL, B. A. (See TCHETGEN, E. J.)
CUI, H. (See CHEN, S. X.)
DANIELS, M. J. (See BOTTS, C. H.)
DAVIDIAN, M. (See HUANG, X.)
DEAN, A. M. (See BORTNICK, S. M.)
DELICADO, P. Local likelihood density estimation based on smooth truncation . . 472
DELLAPORTAS, P., FRIEL, N. and ROBERTS, G. O. Bayesian model selection for partially observed diffusion models 809
EBRAHIMI, N. Models for recurring events with marginal proportional hazards . 481
FANG, K.-T. and MUKERJEE, R. Empirical-type likelihoods allowing posterior credible sets with frequentist validity: Higher-order asymptotics 723
FATTORINI, L. Applying the Horvitz–Thompson criterion in complex designs: A computer-intensive perspective for estimating inclusion probabilities . . . 269
FINE, J. P. (See PENG, L.)
FRIEL, N. (See DELLAPORTAS, P.)
FRÜHWIRTH-SCHNATTER, S. and WAGNER, H. Auxiliary mixture sampling for parameter-driven models of time series of counts with applications to state space modelling 827
FRYZLEWICZ, P., SAPATINAS, T. and SUBBA RAO, S. A Haar–Fisz technique for locally stationary volatility estimation 687
FRYZLEWICZ, P. (See ANTONIADIS, A.)
GASSER, T. (See GERVINI, D.)
GENOVESE, C. R., ROEDER, K. and WASSERMAN, L. False discovery control with *p*-value weighting 509
GERVINI, D. and GASSER, T. Amendments and Corrections to 'Nonparametric maximum likelihood estimation of the structural mean of a sample of curves'. *Biometrika* (2005), **92**, pp. 801–820 1025
GNEITING, T. (See GUTTORP, P.)
GORFINE, M., ZUCKER, D. M. and HSU, L. Prospective survival analysis with a general semiparametric shared frailty model: A pseudo full likelihood approach . 735
GREEN, P. J. and MARDIA, K. V. Bayesian alignment using hierarchical models, with applications in protein bioinformatics 235
GUTTORP, P. and GNEITING, T. Studies in the history of probability and statistics XLIX. On the Matérn correlation family 989
HALL, P. and LI, M. Using the periodogram to estimate period in nonparametric regression 411
HALL, P. and LI, M. Amendments and Corrections to 'Using the periodogram to estimate period in nonparametric regression'. *Biometrika* (2006), **93**, pp. 411–424 1026
HALL, P. and NEUMEYER, N. Estimating a bivariate density when there are extra data on one or both components 439
HALL, P. (See CHENG, M.-Y.)
HE, X. (See LIN, N.)
HO, L.-H. (See CHAN, K.-S.)
HOLMES, C. C. (See PINTORE, A.)
HOUSEMAN, E. A., COULL, B. A. and RYAN, L. M. A functional-based distribution diagnostic for a linear model with correlated outcomes 911
HOUSEMAN, E. A. (See COULL, B. A.)
